- 230V AC at 50Hz Live, Neutral, Live output, 230VAC Live trigger connections
- Timing 0-2 hours selectable.
- Fits 25mm flush box
- 4mm² Terminal capacity
- 5-year warranty

The PRE9250 is a sophisticated yet very simple to use, push operated time switch, ideal for controlling heaters, lighting or ventilation equipment in areas that are used only intermittently and for short periods – such as stockrooms or corridors.

The timer is an extremely versatile unit that provides a programmable run-back time for a 2-hour burst of heating or runs a fan - or a light - for only 10 minutes.

Due to our policy of continuous improvement, we reserve the right to change specifications without notice.
