

PRE9270

Selectable run-back timer

Cleverly simple
control of energy.

Key features

- User-adjustable push-button timer with 15-minute increments up to 2 hours
- Separate on/off button
- 230V AC at 50Hz Up to 25 amp output, (suitable for loads up to 5.5kW)
- Live, Neutral, switched Live output connections
- 25A resistive, 10A incandescent, 6A fluorescent
- 5-year warranty

This versatile electronic timer is well suited for a variety of uses, from immersion heaters to lighting and heating/ventilation equipment.

Run-back times can be selected in 15-minute intervals, whilst the easy to read display shows time remaining, while an on/off button allows the user to cancel the program at any time

For complete convenience, the unit has an intelligent memory that remembers the last instruction.

Due to our policy of continuous improvement, we reserve the right to change specifications without notice.
