The PRE3201B-FM-PRM is a compact surface ceiling-mount PIR detector with absence and presence detection for lighting or ventilation.

All settings are programmed using our infra-red Programming handsets either the PRE5901 or PRE5903.

Easy to fit surface-mount back-plate and clip-on detector, along with removable terminals makes installation fast and efficient.

Due to our policy of continuous improvement, we reserve the right to change specifications without notice. All information was correct at time of when this product file was produced - June 2020
