- Movement detection up to 7 meters high
- Suitable for a wide range of luminaires
- 1-10V analogue dimming
- Supplied with comprehensive fitting kit
- 1000mm cable length supplied
- 5-year warranty

The PRE3208 miniature PIR has been specifically designed for mounting onto a batten style luminaire. The PRE3208 is IP65 rated and is therefore suitable for outdoor use as well as wet and wash-down areas.

The PRE3208 is also available as a direct dim (PRE3208-DD) variant. The direct dim variant controls DALI or DSI digital dimming ballasts, whilst the analogue dim variant controls 1-10V dimming ballasts. A 110V version is also available upon request. All functionality is fully programmable using either the PRE5901 or PRE5903 programming handsets.

Due to our policy of continuous improvement, we reserve the right to change specifications without notice.
